

Kreiranje internet konekcije za Microsoft Windows XP

1. Kliknite na **Start > Control Panel > Network Connections** ili **Start > Control Panel > Network and Internet Connections > Network Connections** ili **Start > Connect to > Show all connections**.

2. Pokrenite **Create a new connection** u meniju Network Tasks, pojaviće se New Connection Wizard, kliknite na **Next>**.

3. Izaberite opciju **Connect to the Internet**, kliknite na **Next>**.

New Connection Wizard

Network Connection Type
What do you want to do?

Connect to the Internet
Connect to the Internet so you can browse the Web and read email.

Connect to the network at my workplace
Connect to a business network (using dial-up or VPN) so you can work from home, a field office, or another location.

Set up a home or small office network
Connect to an existing home or small office network or set up a new one.

Set up an advanced connection
Connect directly to another computer using your serial, parallel, or infrared port, or set up this computer so that other computers can connect to it.

4. Izaberite opciju **Set up my connection manually**, kliknite na **Next>**.

New Connection Wizard

Getting Ready
The wizard is preparing to set up your Internet connection.

How do you want to connect to the Internet?

Choose from a list of Internet service providers (ISPs)

Set up my connection manually
For a dial-up connection, you will need your account name, password, and a phone number for your ISP. For a broadband account, you won't need a phone number.

Use the CD I got from an ISP

5. Izaberite opciju **Connect using a broadband connection that requires username and password**, kliknite na **Next>**.

New Connection Wizard

Internet Connection
How do you want to connect to the Internet?

Connect using a dial-up modem
This type of connection uses a modem and a regular or ISDN phone line.

Connect using a broadband connection that requires a user name and password
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.

Connect using a broadband connection that is always on
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.
